PORTLAND, Ore., Sept. 27.-The likeli-

war is lessening, but not removed, by an

agreement between the Southern Pacific and

the Oregon Railway & Navigation com-

pany regarding San Francisco business. By

its terms both companies recede more or

less from the positions they have heretofore

taken, and each makes concessions to the

other. The Oregon Railway & Navigation

company's differentials are reduced from

\$7.50, first class, to \$6, and from \$6 on second

class tickets to \$4 under the established all-

rail rates from San Francisco to the east.

This concession of \$1.50 in its differential

on first class tickets and \$1 on second class

RECEIVER WALKER TAKES CHARGE.

Atchison Will Be Operated from Chicago

Instead of the East. CHICAGO, Sept. 27.—Receiver Aldace

Walker of the Atchison system, arrived in

Phicago today and made his first official

isit to the offices of the road. He de-

clined to say what the policy of the road

will be under his management, declaring

he had no time as yet to become acquainted

with the system and its workings, but that

in his opinion things would move along in the future as in the past with the one dif-

ference that the road would be managed

by the receiver from the general offices in

his city and not controlled from the east,

Chairman Caldwell of the Western Pas-

senger association returned from the east today and signalized his return by promptly adjusting the rates between Chicago and Kansas City and Chicago and Council Bluffs. The rate of \$6.75 which the associa-

tion roads has made between these points has been abolished. The lines in the as-

sociation expressed a willingness to with-draw their rates if the Atchison, which made the first reductions, would also with-

draw its rate. This the Atchison agreed to

do if the other lines would make the tem-porary reduced rate \$4.25, which is by agree-

ment to be in effect between St. Louis and Kansas City during the St. Louis fair. The passenger committee of the Central

fraffic association was in session today en

deavoring to arrange a basis of percentages by which all the business originating at or passing through Chicago, St. Louis and
